PROFESSIONAL SUMMARY

Results-driven Full Stack & Blockchain Developer with 4+ years of hands-on experience building scalable web applications, decentralized solutions, and secure smart contracts. Skilled in Solidity, JavaScript, Python, and React.js, with proven success in frontend, backend, and blockchain integrations. Adept at Agile collaboration, code optimization, and delivering high-performance, user-focused applications for global clients. Passionate about leveraging blockchain to solve real-world problems.

CORE COMPETENCIES

- ☑ Full Stack Development (Frontend & Backend)
- ☑ Blockchain Development (Ethereum, BSC, Hyperledger)
- ☑ Smart Contract Design & Security
- ☑ REST API Development & Integration
- ☑ Agile Project Delivery & Remote Collaboration
- ☑ Database Optimization (MySQL, PostgreSQL)

TECHNICAL SKILLS

Languages: Solidity, JavaScript (ES6+), Python, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Flask, Web3.js, Ethers.js

Databases: MySQL, PostgreSQL

Blockchain Platforms: Ethereum, Binance Smart Chain, Bitcoin, Hyperledger

Tools: Git, GitHub, Docker, VS Code, REST APIs

Collaboration Tools: Slack, Trello, Jira, Zoom, Google Workspace

PROFESSIONAL EXPERIENCE

Chipnet Computers LTD – Blockchain Developer

Feb 2023 – Present (Remote)

- Designed, tested, and deployed secure smart contracts on Ethereum and Binance Smart Chain.
- Built dApps with wallet integration using Web3.js and Ethers.js.
- Implemented crypto payment gateways, enhancing e-commerce platforms.

Chipnet Computers LTD – Full Stack Developer

Aug 2020 – Nov 2023 (Remote & On-site)

- Developed and deployed 20+ responsive web applications using HTML, CSS, JavaScript, and Flask.
- Integrated blockchain features such as wallet connectivity and smart contract interaction.
- Optimized system performance by 35% through code refactoring and database tuning.
- Collaborated with remote Agile teams on GitHub, boosting delivery efficiency.

Valero Energy – Social Media Manager

Jan 2020 – Aug 2023

- Grew company social media following to 50k+ users, boosting engagement by 40%.
- Coordinated content campaigns and ensured compliance with brand standards.

Christian College, Akwa Ibom – Computer Science Teacher

Apr 2024 – Nov 2024

- Taught programming fundamentals and web development to 100+ students.
- Introduced blockchain concepts into the ICT curriculum, preparing students for emerging careers.

PROJECTS

- Luxury Real Estate DApp – Property listing platform with ETH/USDT pricing & wallet integration.
- Crypto World Investment Platform – Bitcoin investment platform with live chat & secure payment gateways.
- Blockchain Crowdfunding Platform – Decentralized fundraising solution with automated smart contracts.
- E-Learning Platform – Online course platform with blockchain-based certification.
- NFT Marketplace – Platform for minting, buying, and selling NFTs on Ethereum.

- Crypto Payment Gateway – Integrated crypto transactions into e-commerce systems.
- Remote Team Collaboration Tool – Web-based project management and communication tool.

EDUCATION

BSc, Computer Science – Clifford University, Abia State (Sep 2019 – May 2023)
